

# Correction to: Consensus statement on the credibility assessment of machine learning predictors

This is a correction to: Alessandra Aldieri, Thiranjia Prasad Babarenda Gamage, Antonino Amedeo La Mattina, Yi Li, Axel Loewe, Francesco Pappalardo, Marco Viceconti, Consensus statement on the credibility assessment of machine learning predictors, *Briefings in Bioinformatics*, Volume 26, Issue 2, March 2025, <https://doi.org/10.1093/bib/bbaf100>

The following changes have been made to the originally published paper. The fourth co-author's name was erroneously blended into the name of the fourth affiliation - this co-author is now included within the author list to read: "Yi Li<sup>4</sup>".

Affiliation 4 is respectively emended to read:

"<sup>4</sup>Yi Li National Clinical Research Center for Aging and Medicine, Huashan Hospital, Fudan University, 512 Huashan Rd, Jing'An, 200031, Shanghai, China" instead of:

"<sup>4</sup>National Clinical Research Center for Aging and Medicine, Huashan Hospital, Fudan University, 512 Huashan Rd, Jing'An, 200031, Shanghai, China".

The errored blend of affiliations for the third author is corrected to read: "Antonino Amedeo La Mattina<sup>3</sup>" instead of: "Antonino Amedeo La Mattina<sup>3,4</sup>".
