The authors regret.

Two points:

2) “Caitlin” in the Acknowledgements section should instead be “Kathleen”.

1) In Table 2, in the reference column, “Nentwig et al., 1992” and “Friedel and Nentwig, 1989” currently do not have a hyperlink connecting them to their associated full reference as the others do. This should be changed so that they do.

No changes are required outside of the two points above. The authors would like to apologise for any inconvenience caused.
